

## Description

The FORTA<sup>®</sup> Ranger mobile fiber dispenser provides an on-demand solution to adding Surface-EXT™ alkali resistant glass fiber to slurry seal and micro surfacing projects. Its high-speed hydraulic motor and uniquely designed declumping system provide a continuous feed that can withstand harsh paving environments.

The Ranger reduces the opportunity for mistakes. Simply fill the drum with pre-chopped bags of Surface-EXT™, turn on the Ranger, and set the feed rate. The Ranger dispenses the fibers directly into the pug mill of the paver.

## Advantages

- Exceptional accuracy
- On-demand, adjustable dosage solution
- Better quality control
- Easy to install
- Easy to load and use
- Low maintenance
