

Description

The Big Shot® fiber transport system was designed to quickly and safely move synthetic fiber reinforcement from ground-level storage to upper-level batching systems and mixer trucks. With no moving parts and minimal, if any, maintenance, The Big Shot requires only PVC pipe, a few hangers, and a supply of compressed air.

The Big Shot can move loose or bagged fiber (bags up to 3 lb (1.4 kg)). Transportation time for the fiber through a 50 ft (15.3 m) system is 2-3 seconds. This ultra-fast delivery of fibers to your batching system means you'll reduce the time it takes for employees to add fibers. Simply add fibers to The Big Shot at ground level and your fibers are transported within seconds to the batch system.

Specifications

Dimensions (Dia x H)	11 x 36 in (280 x 915 mm)
Weight	50 lb (22.7 kg)
Pipe Diameter¹	8 in (203 mm)
Transport Rate	Approximately 17 ft/sec (5.2 m/sec)
Utilities Required for Operation	
Compressed Air	90 psi at 25 CFM ²
Electrical³	120 VAC fused power source

- Schedule 40 PVC pipe required; curved pipe sections are supplied with system (135° total curvature).
- Sufficient for operation over normal distances; a second air supply may be necessary for longer distances.
- Electrical power only required if the optional The Big Shot Counter will be used with the system.

Limited Warranty

For a period of one (1) year after equipment receipt, FORTA warrants that The Big Shot shall be free from defects in material and workmanship. The exclusive remedy for defective equipment shall be limited to repair, replacement or refund of the purchase price, at FORTA's sole discretion. CONSEQUENTIAL DAMAGES ARE SPECIFICALLY EXCLUDED.

FORTA'S WARRANTY IS EXCLUSIVE, AND FORTA DISCLAIMS ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. All remedies are expressly conditioned upon the buyer's compliance with its obligations contained within the Operating Instructions/Use and Maintenance Instructions for the equipment. If the buyer fails to comply with such Instructions, the buyer shall bear the full cost of any service, including but not limited to repair, replacement and return. No agent or employee of FORTA is authorized to vary the terms of this warranty notice.

FORTA reserves the right to change the specifications of its products without prior notice.

The Big Shot® can be purchased from FORTA or an authorized FORTA® products distributor, dealer or representative.

Applications

The Big Shot can be used to transport synthetic fibers into the batching system of any process where they are required.

Advantages

- Exceptional accuracy
- Better quality control
- Improved worker safety
- Easy to install
- Easy to load and use
- Low maintenance

Options

An optional The Big Shot Counter is available that ensures an accurate count of premeasured bags. The counter system includes a wireless optical counter, remote printer and data recorder. As bags pass through The Big Shot, the wireless counter records time, date and volume of fiber transported.
